The LDT community proudly presents

**CampZone 2017**

The LDT community is planning to go to CampZone 2017 with members from all over the globe. As always we will have a wonderful holiday in the beautiful heart of Europe; The Netherlands!

CampZone is the world's biggest outdoor gaming vacation with almost 2000 participants who come to play games and compete with each other in tents and trailers. The computers and gaming consoles are connected to each other using a Local Area Network and Internet connection. CampZone is held on a large field in Kronenberg, The Netherlands which is transformed into a gaming-campsite for 11 days for this event.

This event offers the participants the possibility to connect with the huge CampZone 10 Gigabit network, allowing everybody to play games and communicate digitally with each other.

However, CampZone is not only about gaming. It is the best opportunity for all community members to meet and start new friendships. Every day the CampZone organization provides activities such as paintball, human bowling, soap football and barbecuing.

In this booklet we hope we can explain everything you need to know about this event and how you can participate.

# What is CampZone?

CampZone is the world's biggest outdoor LAN-party gaming vacation. The hosting organisation is Duh-Events. Most LAN-parties last a weekend but CampZone is a true vacation lasting 11 days! The 1750 visitors will have access to the fast 10 Gbit network with gigabit client ports 24Hr a day for the full 11 days. Next to the LAN a very fast internet connection is provided to all the visitors.

But CampZone is much more than a campsite with computers. Aside from the computers and the network there are many outdoor activities and other events. Every year there are several large campfires during the nights which form a great meeting place for people. And the CampZone organization hosts activities such as paintball, human bowling, soap football and barbecuing.

During the day you can game against each other, participate in activities, play volleyball on the field or just relax and enjoy the sun. Almost every popular game is featured in a competition where you can measure your skill against others.

Basically, it's a big campsite with likeminded people, a high speed LAN network plus internet connection to which you connect your own computer and tons of other fun stuff to do. But of course the best part of all is to meet your online friends from LDT in real life!

# The LDT community

The LDT community is a non-profit community organisation providing gameservers and a website. Next to that we bring the online gaming community together in real life by participating in major lan parties and inviting our members to this event. We try to make this as attractive as possible by easing the process and lowering the cost as much as possible by going as a group. In 2017 we expect to participate with a group of 25-30 people.

Our aim is to bring all of our online friends together and have an awesome 11 days. All LDT CampZone participants share a big structural tent in which all computers are set up. Sleeping accomodation is provided in means of an area around the main tent. You will still need to bring a tent, but if you contact us before we might be able to help you out on this, removing the need to bring your own tent by plane. You are, however, always allowed to bring your own tent or trailer, and if that has extra space for the sleeping spot of other LDT people then we'd love to hear that.

During campzone, LDT will be an intermediary between the main company organising the CampZone event, and the participant. We will order the tickets, tables, chairs, internet hardware, electricity components, tents, fridges and loads of other small things at once. This saves every participant all the hassle of having to order all those things separately, and by ordering stuff in large quantities we can arrange it in a more cost-effective way. Our goal is to make this event as cheap as possible, so that it is affordable even for those traveling from abroad.

How it works: (schematic)

# The Netherlands

The first thing that you need to know is that The Netherlands is also known as Holland. The main language is Dutch although the largest part of the population also speaks English fluently. The Dutch are generally open minded, freedom loving, and tolerant towards foreign people.

The Netherlands is chosen to be the host of this event because of their position in Europe, which is called "the heart". It is easy to reach for almost every country in the world and therefore the perfect position for a LAN party of this size.

The Dutch have one of the biggest economies in the world. The Dutch currency is the Euro, which is also used in a majority of the countries in the European Union.

The Netherlands are known for their tolerant laws on soft-drugs. Please note that this is **not** allowed on the CampZone event! Soft-drugs are strictly prohibited by the CampZone organisation.

Alcohol consumption (in a responsible manner) on-site is allowed for those who meet the legal age requirements.

# Location

CampZone takes place on a terrain near Toverland, between Eindhoven and Venlo. You can easily get there by car.

There are directions to Toverland from the A73 and from the N277 highways.

The address is the intersection of "Peelstraat" and "Schorfvenweg". The nearest real address is:

Schorfvenweg 1  
5976 PJ Kronenberg  
The Netherlands

# Dates

CampZone 2017 will take place between 0:01 on Friday the 11th of August and 12:00 on the 21st of August. Some of us will arrive on Thursday evening on the 10th just before it opens. We recommend foreign participants to arrive the next morning, but if you come by car or would like to join us before the opening of CampZone then this can be arranged.

# Travel and mobility

LDT will come to CampZone with a few cars. On request, all LDT participants can be picked up from train station **Horst-Sevenum**, and, of course be dropped off at the station when you wish to leave. The train station is about 10 minutes by car from CampZone.

For those flying, Eindhoven is the closest airport, but Schiphol airport is much larger so you are more likely to find a good flight there. Schiphol airport provides a train station which allows you to travel to CampZone by train.

Some members from the UK, France and Sweden are going by car; if you want to join them you should try to arrange this on the LDT forums.

We also make daily runs to the supermarket and shops, and you can come along for the ride if you wish to buy some stuff for yourself.
